

SIZE	1-1/8" length x 0.117" diameter
SHANK	tetraGRIP™ Barbed Helix
FINISHES	Galvanized Steel
COLLATION	0° Plastic Coil
COUNT	120 per coil, 3,600 per box
TOOL	TG100CSN (part# 515400)

INTENDED USE

Attachment of fiber cement siding directly to exterior wall sheathing

MATERIAL PROPERTIES / DIMENSIONS*

PART #	MATERIAL	SHANK DIAMETER, D	HEAD DIAMETER, H	LENGTH, L	BENDING YIELD
650964	Galvanized low carbon steel**	0.117"	0.300"	1-1/8"	Minimum 100,000 psi***

*Dimensional values conform to tolerance requirements of ASTM F1667, Standard Specification for Driven Fasteners: Nails, Spikes, and Staples

**Galvanization is comprised of ASTM B695, Class 8, Type II mechanical galvanization with supplemental clear trivalent passivation and proprietary sealer

***Fasteners conform to requirements of ASTM F1667, Table S1.1 per ASTM F1575: Test Method for Determining Bending Yield Moment of Nails
